9/17/14 This is my Customer input to the Commission in protest of requested rate increases. The increase indicted in the Customer Notification (Sept.5) are totally too high and extreme. This water company has for years taken profits and not properly maintained the water system. They recently did hire a company to begin maintaining the poorly designed and dilapidated systems, so I'm not surprised their costs are up! We the customers should not be subjected to outrageous new rates to make up for years of miss management by the water company. The new purposed rate increases are ridiculaoue high. I hope and pray the Commission will not allow the proposed rates. Thank you for your consideration in this matter. Sincerely, Richard Kent.
